Glass Cutting Fluid Oil

Model: HP-5503 & HP-6613

With extensive experience in the automated glass cutting industry, Perfect Score Technologies developed a top-tier glass cutting fluid formulated and sold factory direct. Offers exceptional quality at a lower cost point as compared to other cutting fluid alternatives.

Ideal Applications

- Low E coated glass
- Ornamental glass
- Printed glass
- Architectural heavy plate glass
- General glass cutting

Design Features:

- High-performance, cost-effective cutting fluid for heavy glass plate fabricators and IG manufacturers
- Improves cutting yields by quickly penetrating the score line, preventing healing, and increasing breakout efficiency
- Evaporates before washing to prevent washer water contamination
- Lubricates cutting wheels, extending tool life thereby reducing maintenance costs
- Ideal for warm U.S. climates due to optimized evaporation characteristics
- Lower cost alternative to imported cutting performance fluids.
- Lab tested and approval listed by both PPG and Vitro
- Non-marking / staining on coated glass

Available Formulations:

HP-5503 Glass Cutting Fluid

- Ideal for glass fabricators and insulated window manufacturers
- Most popular formulation with a low 136°F flash point

HP-5503			
Quantity	Price Per Gallon	Extended	Ships Via
2 - 1 Gallon Containers	\$37.25	\$74.50	UPS Ground
6 - 1 Gallon Containers	\$33.33	\$200.00	UPS Ground
2 - 5 Gallon Containers	\$32.00	\$320.00	LTL
4 - 5 Gallon Containers	\$30.75	\$615.00	LTL
1 - 55 Gallon Container	\$25.75	\$1,416.25	LTL

HP-6613 Glass Cutting Fluid

- Ideal Users - thicker glass applications and/or higher elevation facilities.
- Higher flash point of 155°F extends the evaporation time
- The slower evaporation rate improves performance on thicker glass applications.
- Designed for fabricators requiring higher flash point cutting media

HP-6613			
Quantity	Price Per Gallon	Extended	Ships Via
2 - 1 Gallon Containers	\$37.75	\$75.50	UPS Ground
6 - 1 Gallon Containers	\$34.17	\$205.00	UPS Ground
2 - 5 Gallon Containers	\$33.00	\$330.00	LTL
4 - 5 Gallon Containers	\$31.75	\$635.00	LTL
1 - 55 Gallon Container	\$26.75	\$1,471.25	LTL

- Reference SDS for chemical characteristics and personnel safety guidelines.
- Product ships via ground transportation only being a combustible liquid.
