KKO Rotary Seal Table

Model: KKO

Designed for Small to Medium Insulating Glass Unit (IGU) Sealing

The PST KKO-17 Rotating Sealing Stand is an economical, space-saving solution for efficiently sealing insulating glass units. Designed for operator comfort and improved productivity, it features a variable-speed rotating vacuum cup, telescoping support arms, and foot pedal controls that allow the operator to remain in one position throughout the sealing process. Its compact footprint and rugged construction make it ideal for both high-production and custom IG fabrication shops.

Features & Benefits

- Economical rotating sealing stand for small and medium IG units.
- Variable-speed vacuum cup rotation from **0–5 RPM** for precise sealant application.
- Telescoping support frame adjusts from **12" x 12" to 24" x 24"** with a **40" diagonal support span**.
- Recommended for IG units up to **60" x 60"** and **50 lbs.**
- 7" vacuum cup securely holds units during sealing.
- Nitrile ball casters protect glass surfaces from scratches.
- Foot pedal controls for hands-free vacuum and rotation operation.
- Adjustable working height (34"–36") improves operator comfort.
- Optional manual rotation with pneumatic 90° index locking available.
- Operates on standard **115V single-phase power** with **85 PSI compressed air**.

Technical Highlights

- **Weight Capacity:** 50 lbs
- **Recommended Maximum IG Unit:** 60" x 60"
- **Variable Rotation Speed:** 0–5 RPM
- **Table Footprint:** 42" x 42"
- **Working Height:** Adjustable from 34" to 36"
- **Shipping Specifications:** 225 lbs., 42 x 42 x 40 (HxWxL)
Ships FOB Dallas, TX

Why Choose the KKO-17?

- Cost-effective alternative to larger rotating sealing tables.
- Improves sealing consistency and production efficiency.
- Reduces operator fatigue with ergonomic, hands-free controls.
- Compact design fits easily into virtually any IG production area.
- Heavy-duty aluminum construction provides years of dependable performance.
